

*With Danske Fragtmænd, you can insure single shipments or every shipment.*

# Cargo insurance

**PLEASE NOTE:** This is a translation of the product sheet "Insurance". In the event of any discrepancies between the text in this translation and the Danish edition "[Forsikring](#)", the latter shall prevail.

Danske Fragtmænd performs all transport in accordance with the CMR Convention. In other words, the compensation payable by Danske Fragtmænd for any damaged or lost cargo is limited to maximum SDR 8.33 per kilo (by way of example at the price on 12 September 2022: DKK 79.66 per kilo).

You can take out insurance on either single or all shipments.

## **Insuring all shipments**

We collaborate with If Insurance that can offer you an insurance that covers all your shipments. This solution offers you quick and efficient case management at a competitive price. You can insure almost any type of cargo if you take out an insurance on all your shipments.

The insurance is tailored to meet your needs, as If bases it on the type, value, packaging and overall value of your shipments.

If determines the premium based on these criteria and it may be e.g. a percentage of the cargo value of your annual shipments in Denmark.

When we enter into the agreement, If will issue you with an insurance policy.

## **Insuring single shipments**

If you only need to insure a single shipment, you can take out an insurance by EDI-indicating this on the consignment note. You must do so before delivering the shipment at the hub or before the carrier collects your shipment.

# Cargo insurance

The insurance premium depends on the type and value of your cargo (generally the invoice amount and the shipping costs). With a few exceptions, the insurance also covers those instances where the carrier is not responsible for the damage. Unlike insurance cover for all shipments, insurance of single shipments does not cover all types of cargo. The latter covers the following:

- Category A:** Commodities, except the ones listed below.  
**Category B:** TVs, computer monitors, printers, and the like.  
**Category C:** Glass, porcelain, car windscreens, windows, sunbed tubes, and the like.  
**Category D:** Wine, spirits, mobile telephones, iPads, and gaming consoles – stationary as well as handheld (e.g. PlayStation, Nintendo, Xbox).

## Insurance terms

The insurance is taken out on extended Danish terms and takes effect when Danske Fragtmænd collects the shipment or when the shipment is delivered at the hub. Liability expires once the shipment is delivered to the consignee.

If the consignor handles the loading, the liability only transfers to Danske Fragtmænd once the shipment is placed in the lorry and the liability expires once Danske Fragtmænd commences the off-loading. However, if the consignee offloads the shipment, this occurs at the liability of the consignee.

Notification concerning damage which is not apparent must be sent in writing to the carrier within seven days, Sundays and public holidays excepted, from the date of receipt whereas notification of visible damage must be provided on receipt.

Non-visible damage must be reported by the sender/recipient in writing within seven days of receipt (Sundays and public holidays not included), while visible damage must be reported by the recipient upon receipt.

You can find terms and conditions [here](#).

Whether or not your shipment is insured, you must register claims relating to damaged or lost cargo via our [website](#).

## Used or unpacked commodities

The insurance does not cover cosmetic damage, including: Scratches, dents, scrapes and rust, operational and functional defects. Moreover, the exemptions listed in the terms of insurance apply.

## Exception

Some types of cargo are not included in the four categories (A, B, C and D) and are, thus, not covered by the insurance. This applies to:

- Pianos
- Moving goods/inventory
- Antiques
- Fresh food
- Furs
- Paintings and other objects of art
- Valuable shipments such as jewels and metals, jewellery, cash, watches

- A:** DKK 2,000,000  
**B:** DKK 700,000  
**C:** DKK 700,000  
**D:** DKK 500,000

The insurance sum must consist of the latest sales invoice amount for the entire shipment including the shipping costs. Should the stated insurance sum be lower than the actual value of the entire insured shipment and the freight costs, there will be underinsurance, and compensation will be made on a proportional basis.
